

i63 Mobile Phone and Microsoft Teams

Seamless connection as easy as **ABC**

Our solution to wireless school communication is the i63 VoWiFi phone now integrated with Microsoft Teams SIP Gateway for the best of both worlds – cost effective teams communication and a highly reliable mobile device using your own WiFi network. Use it across all of your locations from anywhere you are.

The i63 helps make it easy to optimize workflow productivity for teachers, administrators, operations and security personnel.

Features and Benefits

Scalable from 1-100,000 users across single or multi-site facilities

Seamless integration personal login enables users to dynamically sign-in/sign-out the handset to the Teams user

Rugged and reliable enterprise grade design for both indoor use and rugged outdoor environments, disinfectant-ready

Outstanding voice quality clear, concise audio for reliable communication

Variety of call features caller identity, call waiting, call reject and many more to suite your requirements

Programmable buttons including a panic button to summon help immediately (available with Protector model)

Low Cost leverages your existing infrastructure and is interoperable with major WiFi and PBX vendors

Lightweight less than 5 ozs. including the convenient clip

Large bright, color display easy to read even in low light areas

Additional layer of protection

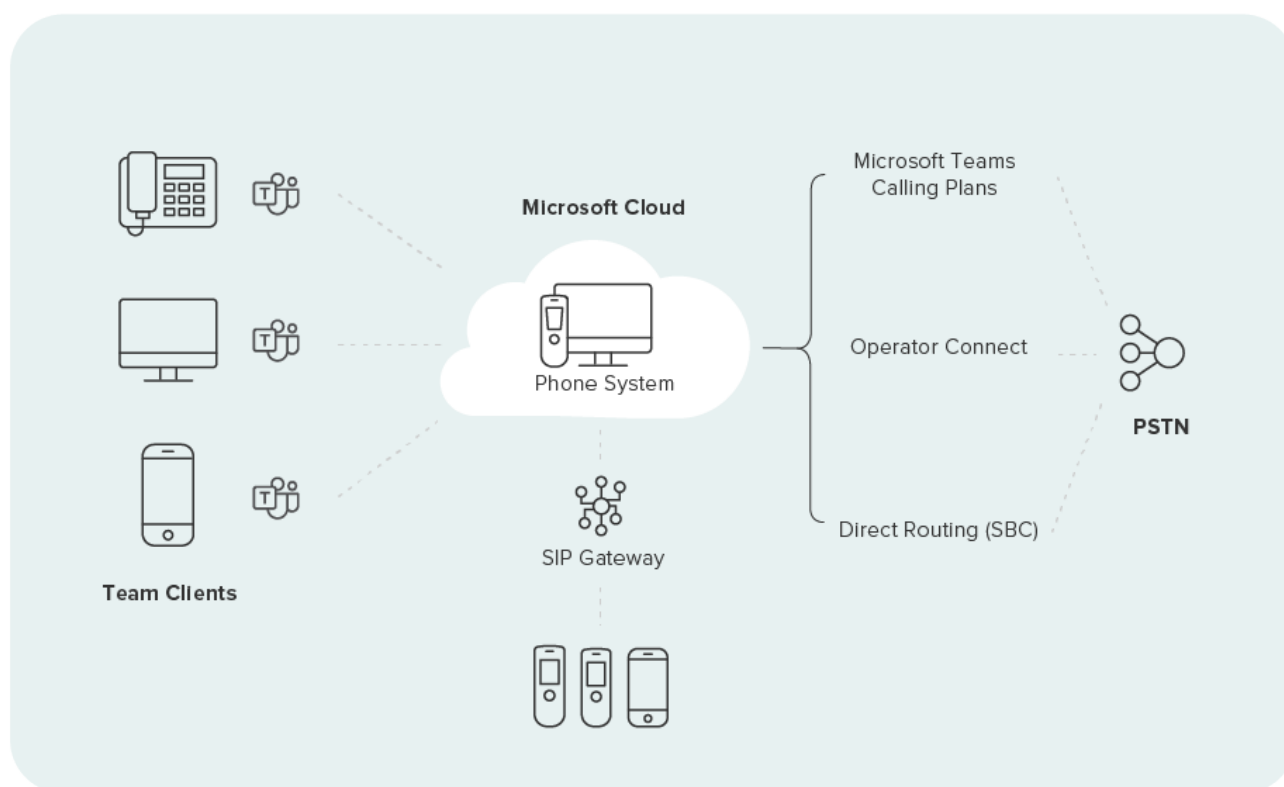

The i63 Protector model also offers advanced safety features designed to provide an extra layer of protection for your mobile team. Have confidence that help is on the way with several types of alarm settings and automated personal safety features.

- **Panic button**
- **Man-down and no-movement**
- **Real-time location (RTL)**

We'll help tailor and implement a new mobility system, integrated to your Microsoft Teams tenant

i63 architecture for an Enterprise Network

About Ascom

Our vision is a world where the right information moves people forward. Our mission is to put the right information in the right hands at the right time so that people can make the best possible decisions.

We are a global provider of communication and collaboration solutions for the acute care, long-term care and enterprise sectors. Our solutions are based on intelligent integrations with software and hardware that are open source and compatible with third party solutions. Every single second, our systems generate large amounts of data, which we then turn into useful and actionable information. This helps us to bring data to life for people in the toughest operational environments, ensuring smooth, complete, and efficient workflows.

Ascom is headquartered in Baar (Switzerland), has operating businesses in 19 countries and employs around 1,400 people worldwide. Ascom registered shares (ASCN) are listed on the SIX Swiss Exchange in Zurich.
